# About us

We're a professional team, established in 2004, and run by Duncan and Gules Cleere. Our approach is personal, enthusiastic and inspired by our design background.

Please feel free to contact us. We can easily provide a guide price for any size or number of windows and will happily visit, free of charge, for a design consultation and survey.

## Our promises

- ✓ Exceptional quality and fully guaranteed hardwood shutters
- ✓ Exciting and exclusive shutter design options, suited to any style of property
- ✓ The same faces deal with you in person, from start to finish
- ✓ Open communication throughout – we're always just a phone call away!
- ✓ Competitive prices

# What we do

We supply and install absolutely top quality hardwood shutters to our clients all around the West Country and beyond. We're a husband and wife team with an interior design background, and will be personally involved in the process every step of the way – from the survey, through the measuring, to the actual installation.

We're dedicated, have a great team who install the shutters with utmost precision, and have years of design experience to call upon. We absolutely love our work and hope it shows.

# Shutters we fit

From barn conversions and country cottages to modern apartments and period homes; our shutters look great in any style property.

Custom made and designed to suit individual style preferences. Constructed from hardwood timber, engineered to perfection, and installed meticulously... there's not a single stone left unturned. We're committed to ensuring our shutters totally elevate your home!

Duncan was totally professional and extremely knowledgeable about his products. His friendly manner made the whole process really pleasant from the initial consultation to completion and we would definitely recommend them and use them again.

*Annie and Lewis Moody MBE*

## Bathrooms

Nothing dampens the human spirit like a cold bathroom in winter. The good news is that our bathroom shutters don't only look stylish; they will also insulate the room during those frosty months.

Solid paint or rich stained...You choose and we'll ensure you have one of the cosiest bathrooms in the South West! You're welcome.

## Living Rooms

It's a balancing act, attempting to allow sunlight to swamp your living room without making it near impossible to make out the picture on the telly. Here's a solution – get some living room shutters.

They're elegant and practical, with angling slats which allow you to control just how much light spills in during the day.

## Bedrooms

Besides looking wonderful, there are good practical reasons for installing bedroom shutters – less noise from outside, extra snug during the colder months. Plus, unlike curtains, they're a doddle to dust!

We match these practicalities with custom made shutters to add a strong design aesthetic to the room – that's design speak for "they look great".

## Kitchens

In so many homes the kitchen is the central hub of activity, and our kitchen shutters have graced many a household – adding a little timeless elegance to the meeting place of pots and pans.

Our shutters are, all perfect for the dual purpose of allowing the sunlight in, and keeping the place nice and toasty when it's cold outside.
